Content

What is covered

Depending on your option, Allianz-Tiriac insures property located at the insured premises, owned by the Insured, classified as:

Global Contents:

- generic property: furniture, rugs, household objects, lighting fittings such as chandeliers, ceiling pendants, wall lights and electrical lamps
- home appliances and audio-visual equipment, electronics and photo equipment
- clothing, footwear, clothing accessories
- valuable items whose value per unit is less than EUR 1,000: jewellery, gemstones, items of precious metal, watches
- house and garden related property: construction materials, fuels, household transportation means, tools, machine-tools, agricultural and animal farming products, foodstuffs, fodder, beehives (without the honeybee colony), etc.

Items located in the garden, balcony, courtyard or on the terrace or deck of the Insured at the address specified in the policy are also insured.

Individual Contents:

Special value items:

- style furniture, tapestries, artworks on glass, musical instruments, manuscripts, items having artistic, scientific or historical value
- valuable items having a value per unit greater than EUR 1,000, kept in strongboxes: jewellery, gemstones, items of precious metal, watches
- money or valuable papers, kept in strongboxes.

2.1 WHAT DOES THE PRODUCT COVER?

Fine art:

Art items or art collections:

- paintings, sculptures, other fine art items

In the absence of alarm systems, coverage of fine art can be provided only if you declare in writing that permanent qualified manned guarding is and will be operational during the whole period of insurance.

To insure fine art items having a value per unit greater than EUR 2,000, authenticity documents drafted by experts certified by the Ministry of Culture are required, documents that will be requested in case of a loss.

What is not covered

- property in buildings that are not covered (see the section „What is not covered“ from Buildings)
- motor vehicles and watercrafts
- plants, including not harvested growing crops, forests, fruit trees
- land or water
- items in Individual contents and Fine art categories where there are no operational alarm systems in place at points of entry into the home
- property, left against norms or terms of usage, on open balconies, terraces or decks, under sheds or out in the open for the risks of atmospheric phenomena
- expenses for restoring the damaged, destroyed or lost documents or paper data.

Geographical coverage

The home and contents insurance is intended for an insured address within the territorial limits of Romania. The private liability insurance covers acts occurring and injury caused within the territorial limits of Romania, both within and outside the insured home. The insurance also covers temporary move to another location than the one specified in the insurance policy if the moving is ordered by authorities in case of sudden threat of flooding, landslide / landfall or other calamities / catastrophes or is determined by the occurrence of such an event, provided that the moving is notified in writing to Allianz-Tiriac and recorded by means of an insurance endorsement.

Sums insured, deductibles, limits of indemnity

For buildings, the sum insured means the declared value of the insured building as per the insurance proposal form / statement of the Insured, respectively:

2.1 WHAT DOES THE PRODUCT COVER?

- replacement value (as new): the cost of building, manufacturing or procuring the building constitutive parts resulting from cost estimates, invoices, contracts or other procurement documents
- or
- market value: the price on the local market that the owner can obtain following a real estate transaction.

For contents, the sum insured means the declared value of the insured items as per your insurance proposal form / statement, taking as reference the retail prices on the local market. If there are no prices available on the local market for some items, their value is set by comparison with other similar items.
The Allianz-Tiriac limits of liability for the insured items are set at the values declared by you and written in the policy.

In case the items included in **Individual Contents** and **Fine Art** are not distinctively mentioned in the insurance policy, Allianz-Tiriac will cover a limit of 10% from the Global Contents sum insured per year of insurance.

For jewellery, gemstones, items of precious metal, watches having a greater unit value than the lei equivalent of EUR 1,000, money, valuable papers that are not kept in strongboxes, Allianz-Tiriac covers the values you declare for these items but no more than EUR 2,000 per year of insurance.

The sums insured for building and contents are established for **Flexa, Natural hazards, Water damage, Theft, Vandalism and Earthquake coverages**.

The lei equivalent for values in euro specified in the Benefits Guide will be determined based on the B.N.R. exchange rate on the date of the insurance conclusion.

For the Home assistance coverage, the Allianz-Tiriac liability limit is EUR 400 per each event, the lei equivalent at the B.N.R. exchange rate on the emergency intervention / repair date.

Allianz-Tiriac covers additional expenses based on supporting documents and up to 10% of the building and/or contents sum insured, except for property located at a different address.

The Allianz-Tiriac liability limits for **Private liability, Glass, Accidental and electric damage** are specified in the insurance policy.

In case of partial loss, after payment of each indemnity / compensation, the sum

2.1 WHAT DOES THE PRODUCT COVER?

insured / liability limit for all coverages except Private liability is automatically reinstated to the value prior to the loss, without additional premium.

In case of policies concluded for different buildings by the same Insured, as well as in case the Insured has a private liability insurance, the Allianz-Tiriac liability limits for **Private liability** are cumulative.

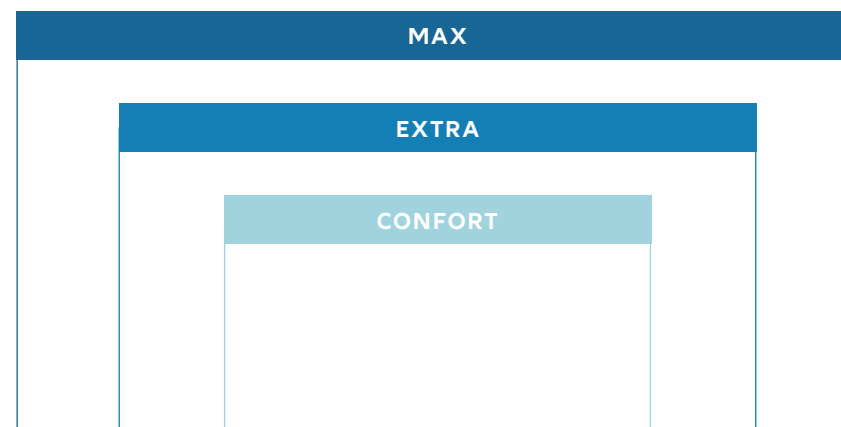

Deductibles

The applicable deductibles are those specified in the insurance contract.

- floods and/or landslides as natural hazards if the insured items (buildings and/or contents) are situated in an area with high risks for floods and/or landslides.

Home assistance

What is covered**Emergency Home Assistance**

We will organize and cover the cost of repair (travel and labour costs of the specialist as well as costs of necessary spare parts) to prevent further damage or impairment of the living conditions in case of:

- damage to the plumbing and/or drainage system
- blocked toilets, baths & sinks
- breakdown of the electricity supply system
- failure or breakdown of the main heating system and/or the hot-water supply provided by the main heating system
- damage to external locks, roof, doors or windows of your home due to storm, fire, smoke, burglary, attempts of burglary or vandalism in which case we will provide a temporary emergency solution
- locked external door (with mechanical locks), if you or your household members are locked out or inside your home in which case we will provide unlocking. In case of lost or stolen key, we will cover the work of the specialist in the replacement process (excluding costs of the new lock)
- pest infestation inside your home due to rats, mice, insects or nests of wasps and hornets (also nests of wasps and hornets on external wall, roof or roof soffit of your home which is a single-family detached house).

If an Emergency Home Assistance service is required to prevent further damage or

sustained impairment of your living conditions after the occurrence of the insured event, you should notify our 24-hour emergency call centre which will organize the visit of a qualified specialist.

Multi Appliance Insurance

We will organize and cover the costs of repair (travel and labour costs of the specialist as well as costs of necessary spare parts) in case of:

- breakdown of your domestic appliance if it is gas/electric kitchen/stove/oven, washing machine, washer-dryer, dryer machine, refrigerator, freezer and/or dishwasher and if the following conditions are met:

What are your responsibilities? – general obligations

In this section we will inform you about your obligations during the period of the contract.

[→ Go to the Table of coverages](#)

2.3 WHAT ARE YOUR RESPONSIBILITIES? – GENERAL OBLIGATIONS

Your obligations regarding the conclusion and performance of the insurance contract

- to communicate to Allianz-Tiriac complete and accurate information for the analysis of insurance needs and factors that may determine the insured risks occurrence
- to allow the Insurer to carry out the risk survey, at its request
- to declare the existence of other policies for the same type of insurance, including those placed at different insurers, both at policy conclusion and during the period of insurance
- to pay the insurance premium in the amount and by the due dates specified in the insurance contract; in case of non-payment the insurance contract will be automatically suspended
- to notify Allianz-Tiriac in writing within 30 calendar days regarding any intention of modification (construction alteration, extension, change of use etc.), suddenly appeared or already put in practice in relation to the data considered at policy conclusion or of a nature to aggravate the risk, even if these changes take place against your will.
- Risk aggravation occurs when:
 - the safety measures existing at policy conclusion or that were subsequently installed are removed or decreased in number, capacity or size
 - in an adjacent building (sharing common walls) construction works are carried out, scaffolds, installations or other betterments are being erected/installed
 - the lock of the entrance to the building is not replaced with a similar or higher quality lock following loss of a key
- to allow Allianz-Tiriac to verify how the building and insured property are maintained
- to maintain the building and insured property in good condition, to maintain the fixed installations that service the building in proper condition, according to manufacturer instructions and recommendations
- to keep the fine art and special value items in optimal conditions and to make sure that when you or the persons relevant for the insurance are absent, the doors and other openings of the insured building are locked at all times and provided with safe locking systems that do not allow entrance inside without their damage or destruction
- to make sure that all safety systems, especially anti-theft alarm system, are operational throughout the period of insurance

[→ Go to the Table of coverages](#)

2.3 WHAT ARE YOUR RESPONSIBILITIES? – GENERAL OBLIGATIONS

- to bear the bank charges for any premium refund operation carried out by Allianz-Tiriatic.

In case of non-compliance with these obligations or of failure to provide accurate and complete information at policy conclusion or in case of gross negligence regarding the maintenance of the building or property in relation to a situation that aggravated the risk and led to its occurrence, Allianz-Tiriatic has the right to cancel the insurance contract as of the date of fact finding without refund of premium for the period elapsed since policy conclusion or, as the case may be, to decline payment of indemnities / compensation.

Your obligations regarding the insured risk occurrence

- to notify Allianz-Tiriatic in writing about the insured risk occurrence, the causes and circumstances of the occurrence no later than the time limits specified in the section 2.4 A loss has occurred – What comes next?
- to provide Allianz-Tiriatic all requested information and documents
- to allow us to investigate/verify the cause, circumstances and the extent of the loss
- to take measures to minimise the loss and in case of fire, explosion or theft to promptly notify the firefighting brigade, the Police or other competent public authorities
- to preserve the affected parts and make them available for assessment to Allianz-Tiriatic
- to preserve the right of recourse against the persons responsible for the loss.

In case of theft / destruction of insured property by vandalism:

- to take care that all evidence of the damage or destruction stays untouched until investigation of the facts
- to inform Allianz-Tiriatic and the police no later than 24 hours after you have become aware of the loss
- to provide Allianz-Tiriatic and the police with a signed list of the stolen, damaged or destroyed property
- to provide assistance if Allianz-Tiriatic decides to use legal means, in the name of the Insured, to partially or fully recover the stolen fine art items that constitute the subject of a claim
- to allow Allianz-Tiriatic to investigate the cause and to calculate the loss amount and the indemnity by providing all relevant information and documentation
- in case that stolen property has been found, to notify Allianz-Tiriatic within 5

2.3 WHAT ARE YOUR RESPONSIBILITIES? – GENERAL OBLIGATIONS

business days or 24 hours in case of fine art, regardless of whether it has been found before or after indemnity payment and to return to the Insurer within 15 calendar days the indemnity received or the difference between such indemnity and the cost of repair or replacement of components or parts found damaged or incomplete

- to make available all police findings reports to Allianz-Tiriatic.

In case of private liability:

- not to admit any liability and not to make any offer, promise or payment without the written consent of Allianz-Tiriatic
- to organize a good defence in case the injured party initiates a legal action, considering the recommendations made by Allianz-Tiriatic, including with regard to the employment of counsel both in the court of first instance as well for the appeals.

In case of non-compliance with these duties, Allianz-Tiriatic has the right to decline indemnity / compensation payment if for this reason it could not determine the cause or real extent of the loss arising out of the insured risks or if you contribute to the aggravation of the loss or fail to preserve Allianz-Tiriatic right of recourse due to non-compliance with your duties.

Allianz-Tiriatic obligations

Allianz-Tiriatic is liable to cover the risks insured under the contract and, in case of occurrence of such insured risks, to indemnify the Insured or the insurance beneficiary, as the case may be, or the injured third party for the loss, damage or injury suffered, provided that the Insured or the Policyholder has paid the insurance premium in the amounts and by the due dates set in the contract.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

Notify the loss correctly and Allianz-Tiriac will settle your claim as soon as possible. If one of the insured risks occurred in your building:

- take loss minimisation measures
- immediately notify the firefighters in case of fire
- immediately notify the Police in case of theft, attempted theft, burglary, robbery or destruction or property through vandalism
- if possible, take photos of the details that capture the damage incurred
- if another person could be responsible for causing the damage, find out information regarding this person (such as first name, last name, mobile phone number or email address).

If one of the events described under **Home Assistance** section occurs, call on the NON STOP Assistance Center and request emergency home repairs.

Allianz-Tiriac covers the cost of the assistance services up to the limit of the sum insured per event and you can pay the difference corresponding to spare parts and additional work. If the damage and the costs in excess of the **Home Assistance** limit derive from events insured under other policy coverages, you have to notify the loss. Allianz-Tiriac will reimburse you with the amounts paid to the service providers.

If you have caused damage to another person:

- notify Allianz-Tiriac if the person you have caused damage to claims compensation
- fill in a statement regarding your liability and the amount claimed
- notify Allianz-Tiriac if the NON-STOP person sustaining damage has exercised their legal right to seek compensation from an arbitration institution or other public authority and inform the Insurer regarding your legal representative and the result of the legal proceedings
- follow our instructions on compensation for damage
- do not admit and do not satisfy demands for payment of damages and do not enter into settlements or court agreements without the written consent of Allianz-Tiriac.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

For your peace of mind during the loss settlement process, Allianz-Tiriac provides you with the Claims Tracker, a tool that gives you 24/7 real-time updates regarding your claim in 4 easy steps:

- **Notification**
- **Assessment**
- **Settlement**
- **Feedback**

Do not alter the condition of the damaged property and do not remove the cause without Allianz-Tiriac consent, except in cases where it is required for safety, hygiene or environmental reasons. Please inform us if your home is also insured with another company (the insurance company name and the insurance contract number must be specified).

Allianz-Tiriac will pay the indemnity:

- to you or the person empowered to receive it
- to your legal heirs, if applicable. For the home and contents insurance the beneficiary is the insured owner. If the property is owned by more than one person, the indemnity will be paid to each owner in accordance with their share of the property
- In case of third party liability, Allianz-Tiriac will pay the indemnity to the injured party.

For the loss settlement you may choose either to:

- accept the offer of indemnity, in which case Allianz-Tiriac guarantees payment within 2 business days from receiving your consent, or
- reimbursement of repair expenses or replacement cost of the damaged property, in which case you will provide Allianz-Tiriac with a repair estimate/offer or a repair or purchase invoice via Claims Tracker.

The indemnity amount will not exceed the usual cost of repair or replacement available in Romania and will be paid in lei, in the IBAN account provided by the person entitled to receive the indemnity. Exception makes the home assistance services which entail repairs carried out by providers contracted by Allianz-Tiriac.

How is the amount of indemnity calculated?

The sum insured is the maximum limit of the indemnity amount. The loss settlement is limited to the insured event or insurance year.

In case of private liability, the amount of indemnity is calculated according to the legislation in force and taking into account the damages claimed and established by the injured party.

Notification

In case of a loss occurrence notify Allianz-Țiriac as soon as possible, complying with the maximum notification time limits: 24 hours from the occurrence of the event.

Notify a loss occurrence:

- online at www.allianztiriac.ro
- by phone to the Claims Center: 021 201 91 81 / 021 201 91 80 or *21 201 918 (only in the Orange network) Business hours: Mon-Fri, 8:00-20:00, except for legal holidays.

You are under the obligation to provide all information required to determine the cause, the extent of the damage and the type of loss. If at the time of loss notification you knowingly communicate incorrect or incomplete information as to the cause or extent of the damage, Allianz-Țiriac may:

- require you to cover the cost of the event investigation
- decrease the amount of indemnity to be paid to you
- refuse to pay the indemnity in full.

- After completing the loss notification you will receive a customized link to Claims Tracker and you will be able to track the status of your claim in real time, 24/7.

Assessment

Claim assessment

You will receive via Claims Tracker all the relevant information about the claim assessment. You will be required to provide a number of documents in digital format, such as:

- photographs of the damage and of its cause
- the identity document
- the building outline
- the title deed of the building
- if they have been called on regarding the event
- cost estimates or contracts for repairs, respectively technical assessment reports or invoice for repairs of items inside the home.

Do not worry if you meet with technical issues in uploading digital images in Claims Tracker or if the uploaded images do not have a high enough resolution to allow Allianz-Țiriac to assess the loss. An Allianz-Țiriac expert will come and take the necessary photographs. If you or the insured person refuses the carrying out of the assessment and, as a result, the type and extent of the loss or the cause of the event occurrence cannot be verified, Allianz-Țiriac may refuse to pay indemnities.

The assessment is concluded by confirming that the loss is covered and informing you of the next steps to be taken to settle the claim file.

Settlement

Repairs

Repairs to damaged or destroyed buildings or property can be carried out by professional contractors based on repair work estimates and invoices that will be verified by Allianz-Tiriac representatives, by comparing them to the data in the loss assessment report and with the market prices.

Claim handling

After performing the assessment, Allianz-Tiriac will calculate the indemnity amount depending on the type of loss (total or partial), the sum insured and retentions, if any.

Total loss means complete destruction of insured property (building or contents) or disappearance, without any salvageable parts that can be used or exploited, or destruction in such a manner that, although there are salvageable parts that can be used or exploited, restoration by repair is no longer possible or the cost of repair equals or exceeds the sum insured of the policy, except for underinsurance of buildings or constructions.

Partial loss means damage to, destruction or depreciation of parts of the insured buildings or property in such a manner that they can be repaired and restored to their state prior to the insured risk occurrence and the cost of repair does not exceed the sum insured of the policy.

The indemnity cannot exceed the sum insured at policy conclusion, the value of the loss or the value of the building or other property at the time of the damage, where:

- sum insured at policy conclusion means the sum written in the policy
- value of loss means the indemnity set according to assessments
- value of the building at the time of the loss means the cost of constructing or procuring the constitutive parts of the destroyed or damaged building, calculated at local market prices

- value of property at the time of the loss means the cost of procuring or manufacturing the destroyed or damaged property, calculated at local market prices.

The amount of indemnity includes, based on supporting documents and up to the sums insured, expenses incurred to save the building or contents (loss minimisation) that are distinctly specified in the list of indemnifiable property.

In case of fire and/or explosion, indemnity is granted based on the fire or investigation report, issued by the unit that fought the fire, establishing the circumstances and cause of the event.

Calculation of indemnity for buildings

Depending on the sum insured of the policy and the extent of the damage, the indemnity amount is:

- in case of total loss – the sum insured of the policy, except in case of overinsurance, when the indemnity amount is the new replacement actual cash value or market value.
- in case of partial loss, up to the sum insured of the policy – the cost at the time of loss of repairs, restoration, reconditioning or replacement of the parts damaged or destroyed and restored to the state prior to the insured risk occurrence and the cost of the repair does not exceed the sum insured of the policy.

If on the date of the insured risk occurrence the sum insured exceeds the new replacement value or the market value of the building, the indemnity will not exceed the (new) replacement value or market value of the building on the date of insurance contract conclusion and the insurance premium corresponding to the excess of sum insured will be refunded.

In case of **partial loss**, the indemnity amount includes the covered additional expenses, based on supporting documents, provided that the total indemnity does not exceed the sum insured. If the loss was aggravated from other causes than the insured risks, the indemnity will be determined only for the part of the loss that was caused by the insured event.

Calculation of indemnity for contents

Depending on the type of contents insured (global or individual) and of the loss, the indemnity amount is:

- the sum or limit insured of the policy, in case of total loss
- the value of depreciation at the time of the risk occurrence or the cost of repairs or the cost of replacement / restoration of the parts damaged by insured risks, in case of partial loss.

The value at the time of the insured risk occurrence is determined based on the following unit prices:

- retail prices on the local market, for commercial goods
- the acquisition prices, and in their absence, the selling prices on the local market less mark-up, for products, foodstuffs and fodder out of the Insured's own production as well as for goods from household production that have an assimilated commercial item
- prices of equivalent goods if damaged items are not available on the local market and there is no reference price for the item. The loss in quality (depreciation) is agreed together with the Insured as a percentage based on examination of the damaged or destroyed property or, as the case may be, by licensed experts, the amount of the loss being calculated by applying the depreciation percentage to the value of the property at the time of the insured risk occurrence.

The cost of repair of the property, including of the building damaged at the time of burglary related theft, is determined according to the repair/replacement cost estimate and invoice issued by the repair shop. For the calculation of the indemnity amount only the cost of replacing components that have been damaged is considered, even if during the repair other components have been replaced or improvements have been made compared to the state of the item prior to the risk occurrence. For material damage caused by the **risks of burglary related theft and/or robbery or vandalism**:

- indemnities are granted only if 30 calendar days have passed since the date of the Insured's loss notification, period necessary to carry out the investigations and if the police or other investigating bodies confirm in writing the burglary related theft or robbery and specify that the stolen property has not been found during this period.
- if the stolen property has been found before indemnity payment, indemnity is granted only for damage caused as a result of the theft, if any.

The Policyholder or the Insured are under the obligation to notify Allianz-Tiriac without delay on finding lost or stolen property or parts thereof after the insured event or after payment of indemnity. Allianz-Tiriac is entitled to receive the amount indemnified. However, the beneficiary may deduct from the amount returned to the insurer the reasonable costs incurred in remedying the defect during the period in which he was unable to benefit from the property.

- for damage caused to the building by breaking of doors and other construction or furniture elements with the purpose of stealing, the indemnity equals the cost of repairing the damaged or destroyed parts.

Calculation of indemnity for fine art

In case of damage to the insured item Allianz-Tiriac will pay the restoration cost plus any depreciation in value resulting from the restoration, however not more than the sum insured of the item as specified in the insurance policy or in an insurance endorsement.

The costs incurred with the loss expert assessment expenses and loss minimization expenses are granted up to the lei equivalent of EUR 1,500.

The following will be considered for the loss or damage assessment and settlement:

- the indemnity will be the value of the fine art items on the date of the insurance contract conclusion, in case of destruction of fine art items in such a manner that, although there are salvageable parts that can be used or exploited, the cost equals or exceeds the value of the fine art items on the date of the insured risk occurrence.
- in case of damage to an item part of a set, the loss or damage to the item will be fairly evaluated in relation to the total value of the set, depending on the significance of the item, however it will not be considered as the loss of the entire set
- after payment of the full sum insured for each item or set, Allianz-Tiriac will become the sole owner and has the right to take possession of the aforesaid
- the maximum indemnity limit has as reference: the acquisition price, plus different taxes or fees related to the acquisition or the market value of the item, according to the expertise provided by experts certified by the Ministry of Culture.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

Right of redemption – applicable for fine art

You have the right to redeem the recovered property from Allianz-Tiriatic for a sum equal to the indemnity received plus the legal interest rate (the BNR reference interest rate calculated from the date of indemnity payment to the date of redemption), as well as the recovery expenses. Allianz-Tiriatic will notify you regarding the recovered property right of redemption. You have 60 days from the date of notification to exercise your right.

Home assistance

The survey of the event occurrence, assessment of consequences and performance of emergency repairs are carried out via the NON STOP Assistance Center and the approved service providers. The Assistance Center operators are the only persons authorized to assess and classify the event, as well as to determine the services necessary for emergency repairs.

The intervention timings depend on the address of the insured goods, the estimated time is 2 hours for Bucharest and 4 hours for the rest of the country (in aprox. 80% of the cases). Any survey, assessment or repair at home is carried out only in the presence of the Insured or his/her representative. Allianz-Tiriatic has the right:

- to choose how to carry out the works cost-effectively and efficiently
- after the intervention, to conduct an expert assessment on the event and its consequences, as well as on how the approved provider carried out the repairs.

Calculation of indemnity for Private Liability

In case of bodily injury, indemnity will consist of payment of the expenses necessarily incurred by the injured person for health recovery or improvement, not covered by the social security system, as well as of compensation of the net loss of income suffered by the injured person throughout this period.

In case of death, the indemnity will cover the following expenses:

- funeral expenses, based on supporting documents
- expenses to transport the deceased person, supported by documentary evidence, from the place where the death occurred to the locality where the burial takes place

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

- forgone net income and other expenses caused by the accident occurrence and incurred from the accident occurrence date to the burial date
- periodic payments (maintenance allowances) awarded to those legally entitled to. In case of damage to property, compensation represents the cost related to procurement, repair, reinstatement or restoration of damaged property or the cost to procure an item similar (both regarding technical features and age) to the damaged or destroyed one, deducting the wear and tear and/or the value of the salvageable parts that can be exploited, as the case may be.

The indemnities set cannot exceed the value of the property at the time of the insured event occurrence. The indemnities, including legal costs incurred by the Insured, cannot exceed the maximum limit of liability assumed under the policy. If the damaged or destroyed property has been insured separately by their owner (the injured third party), Allianz-Tiriatic grants compensations for the difference between the loss amount and the indemnities granted under any insurance concluded (if collected).

The indemnity amount is set either by mutual agreement between parties or decision of a final court. The agreement can be reached between the Insured and the injured parties with the consent of Allianz-Tiriatic. Payment of the indemnity extinguishes any claims the injured parties bring against you and implicitly any claim you bring against Allianz-Tiriatic.

Loss settlement based on the mutual agreement of the parties, with the consent of Allianz-Tiriatic, is achieved in all cases when the Insured's private liability for the loss occurrence is clearly established and the injured party makes proof of the pecuniary loss sustained. If it is settled that the compensation owed by the Insured to the injured person is granted as regular payments (maintenance allowances), then the compensation owed by Allianz-Tiriatic will be paid as such, until the sum insured is exhausted, except for the compensation for the Insured's legal costs. Allianz-Tiriatic indemnifies you (if you prove you have paid the amounts claimed by the injured third party) or directly the injured party, with your prior notification and consent, unless the injured party has already been compensated by you. This indemnity cannot be claimed by your creditors.

The My Home insurance product does not cover moral damages suffered by injured third parties, neither in the case of personal injury nor in the case of death.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

Applicable retentions

In cases when, on the date of the insured risk occurrence, the sum insured is less than the replacement value (as new) or the market value of the building, the average rule applies and the indemnity decreases proportionally to the ratio between the sum insured of the policy and the replacement value (as new) or the market value of the building on the date of the insurance contract conclusion.

The cost of property purchased and improvements carried out after conclusion of the insurance contract, uninsured by means of an insurance endorsement and damaged following the event occurrence, is deducted out of the loss amount considered as part of the indemnity. Out of the indemnity amount, Allianz-Tiriac will retain:

- the deductible specified in the insurance policy
- the value of salvageable parts that can still be used or exploited. If an agreement cannot be reached on deducting the value of salvageable parts from the indemnity, by paying the indemnity Allianz-Tiriac can take possession of the property for which indemnity was paid. The taking into possession is made based on a handover report. If Allianz-Tiriac fails to exercise its option to take possession of the property within 60 days from indemnity payment, you will remain the owner of this property
- any premiums owed until the end of the period of insurance
- amounts related to average rule applied to buildings
- payments on account of the indemnity.

Payment of indemnity

Loss settlement is achieved by:

- payment of the amount determined as a result of the loss survey and assessment carried out by Allianz-Tiriac representatives based on the provisions in this document or
- repairs carried out by service providers authorised by Allianz-Tiriac.

In case that on the date of the claim, another insurance covering the same object and risk is in place, then the insurers will contribute to the compensation/indemnity proportionally to the sum insured.

2.4 CLAIM HAPPENED – WHAT COMES NEXT?

In case of an insured risk occurrence, upon the insured's request, Allianz-Tiriac can make an advance payment of 30% at the most of the estimated indemnity.

Indemnities are paid within 15 business days at the most from the date when the complete documentation is submitted to Allianz-Tiriac, based on your written agreement regarding the due amounts, expressed by signing the submission of the claim form.

Allianz-Tiriac reserves the right to postpone payment of indemnity until the closing of criminal investigation or procedure if such action has been opened / started against you in relation with the loss.

Feedback

Once the claim file is completed, Allianz-Tiriac will ask your opinion on the claim settlement process via your personalised Claims Tracker link. We need your opinion to provide you with an experience the way you want it. We thank you in advance for taking the time to provide feedback.

What is the most important information about your contract?

In this section, we will inform you about the payment of premiums, the validity of the insurance policy and what can trigger policy termination.

[→ Go to the Table of coverages](#)

2.5 WHAT IS THE MOST IMPORTANT INFORMATION ABOUT YOUR CONTRACT?

Payment of insurance premiums

The value of the insurance premium is to be set based on the information you provided by filling in the insurance proposal form. You can pay the insurance premium in full or in instalments, as specified in the insurance policy. The full premium or the first instalment is to be paid within 2 business days at the most as of the policy effective date, while the next instalments are to be paid by the due dates specified in the policy.

Insurance premiums are to be paid in lei.

For policies issued in other currency, the payments are made in lei at the BNR exchange rate on the debit note issue date or on the date of payment if no debit note has been issued.

Allianz-Tiriac may send you a payment notice at least 5 calendar days before the premium due date. If you do not receive this notice, you are not released from the obligation to pay the insurance premium on the dates mentioned in the insurance contract /policy.

If you fail to pay in due time, Allianz-Tiriac grants a 5-calendar day grace period for the payment of due instalments, other than the first instalment. If a loss occurs during the grace period, you can be compensated provided that the premium instalment is paid no later than the grace period expiry date.

If the premium instalment is not paid during the grace period, starting with the day immediately following the grace period expiry, the insurance contract is automatically suspended for 30 calendar days, calculated as of the due date, and any liability of the Insurer for the risks occurring during the suspension period implicitly ceases.

The suspension period can be lifted by means of an insurance supplement, provided that:

- within 30 calendar days as of the due date of the owed premium instalment the Insured must request in writing the reinstatement of the contract, expressly declaring that no losses occurred during the suspension period
- the overdue premium is paid and the insurance endorsement is issued.

The insurance contract is deemed reinstated as of 24:00 hours of the day when the premium instalment is cashed in and the insurance endorsement is issued.

If after expiry of the suspension period the overdue premium instalment is still unpaid, the insurance contract will automatically terminate.

Bonus

Allianz-Tiriac grants a premium discount (bonus) for each successive insurance year when Allianz-Tiriac doesn't pay any indemnity.

Policy duration and valability

Inception date of the insurance contract

The liability of Allianz-Tiriac begins on the date and at the time specified in the insurance policy, provided that the insurance premium or the first premium instalment is paid as per the policy provisions.

If the policy is altered by means of an insurance endorsement, the liability of Allianz-Tiriac begins on the next day after endorsement issuance, but not earlier than additional premiums, if any, have been collected and ends at the same time as the policy it endorses or on the last day of the endorsement period if it extends the initial period of insurance.

The liability of Allianz-Tiriac ends:

- at the date and time of the insurance period specified in the insurance policy, without any further notification
- on the date of a total loss settlement
- at the time of the cancellation as per the section Contract cancellation
- on the date when the ownership of the insured property is lost or transferred.

Changes affecting the policy

All communication regarding changes of the insurance contract must be made by electronic correspondence (email) using the means provided by the Insurer. If you didn't sign an electronic communication agreement with Allianz-Tiriac, you will use the post mail services.

If you or the person concluding the policy provided inaccurate or incomplete information that would have determined Allianz-Tiriac not to conclude the insurance policy or not to conclude it under the agreed terms and conditions, even though the omission or declaration were not intentional, the following possibilities are considered:

- if the situation is discovered before the insured risk occurrence – the Insurer has the right to continue the contract by requesting the increase of the premium or to cancel the contract after a 10-day period (calculated from the date when you receive the notification); the Insurer will refund you the portion of the paid premium corresponding to the period after the cancellation.
- if the situation is discovered after the insured risk occurrence – the indemnity amount will be reduced proportionally to the ratio between the amount of the paid premium and the amount of the premium that ought to have been paid, should the circumstances have been known.

If you or the person concluding the policy acted in bad faith when you provided inaccurate or incomplete information regarding those circumstances that would have made Allianz-Tiriac decline conclusion of the insurance contract or sign it under different terms and conditions, the insurance contract is null and void. The paid insurance premiums are non-refundable and Allianz Tiriac is entitled to request payment of any premium due up to the moment when it becomes aware of the nullity cause.

Contract cancellation

If either you or Allianz-Tiriac are in breach of each party's obligations, both parties are entitled to cancel the contract.

If you fail to pay the insurance premium by the expiry of the suspension period and no insurance endorsement is issued to lift the suspension, the insurance contract terminates starting with the day after the premium due date, without any prior formality and without the intervention of any court of justice.

Starting with this date all obligations of Allianz-Tiriac terminate, the Insurer has no liability for any risks occurring as of the suspension date, even if overdue premiums are paid after the suspension.

You have the right to withdraw from the insurance contract and to request its termination within the first 14 days after conclusion without any obligation to invoke a reason if no insured risks occurred. In this case Allianz-Tiriac will fully reimburse the paid premium upon your written policy withdrawal request.

If you have paid the insurance premium and the insurance contract terminates after the 14-day period from issue date, Allianz-Tiriac reimburses you the insurance premium for the period remaining until expiry calculated per days of insurance in a proportion of 1/365 of the annual premium, if no losses were settled or reported under your insurance policy.

2.5 WHAT IS THE MOST IMPORTANT INFORMATION ABOUT YOUR CONTRACT?

The policy may also terminate at your request with a 20-day prior notice.

If Allianz-Tiriac paid or owes indemnities corresponding to your insurance contract and you failed to pay the premium instalments, the Insurer reserves the right to recover these instalments, even if the contract has been cancelled or terminated.

Dispute resolution / how do we address any differences?

Any litigation will be settled by the competent courts in compliance with the Romanian legislation.

In any action, litigation or dispute where Allianz-Tiriac claims, according to the provisions of the Benefits Guide, that an event is not covered under the insurance contract, the burden of proof regarding the coverage lies with the Insured.

2.5 WHAT IS THE MOST IMPORTANT INFORMATION ABOUT YOUR CONTRACT?

Additional information

The policy is concluded based on the information provided by the Insured, which make integral part of the insurance contract, together with the policy appendices, insured property schedules and written declarations of the Insured.

The insurance is deemed concluded when the policy is issued by the Insurer and the insurance premiums are paid.

Allianz-Tiriac takes over the Insured's rights against the parties liable for the occurrence or aggravation of the loss or damage. The Insurer may waive the exercise of such right unless the loss or damage was wilfully caused.

The right to claim indemnities from Allianz-Tiriac lapses in 2 years after the date of the insured event occurrence for home and contents insurance, while for private liability insurance, where the persons claiming compensation are third parties in relation to the insurance, the prescription term is 3 years.

4 FREQUENTLY ASKED QUESTIONS

What to do in case of any type of loss?

In case of a loss occurrence, you must identify and address its causes, as well as take the necessary measures to minimise the extent of loss – loss or damage occurring subsequently following your failure to take necessary measures to minimise such loss or damage will not be indemnified. You must also preserve all damaged property for the representatives of authorities and of Allianz-Tiriac to carry out the necessary assessments.

When must I report a loss?

The occurrence of an insured event covered must be reported to the Claims Centre:

- within 24 hours at most after becoming aware of the loss, in case of theft
- within 5 business days at most for other types of claims.

What to do in case of fire, theft or natural hazards?

Call the European emergency line 112 .

In case of fire, you must turn off the gas and power supply of your home and notify the firefighters or the police. Try to extinguish the fire yourself, but only if this does not endanger your life. If you are a victim of theft or vandalism of property inside your home, you must take the necessary measures to preserve all traces, notify the police and draw a list of the missing or destroyed objects to present it to the police and Allianz-Tiriac

If natural hazards occur - flood, alluvia, flash flood, landslide or earthquake – you must notify the General Inspectorate for Emergency Situations or contact the local town hall.

What is going to happen if I fail to pay the insurance premium in due time?

The insurance contract will be suspended or cancelled.

To insure the contents of my home, do I only have to declare the sum insured?

If the contents to be insured include special value items, fine art and art collections, then you have to provide a detailed description of these elements and communicate details regarding the dwelling where these items are kept, regardless of their type.
